One day Isaac Newton was reading a book under an apple tree when an apple fell out of the tree. Why did the apple fall? What makes things fall? Newton spent many years answering these questions by thinking and doing experiments. He finally made up the law of Gravity. His law also explained how planets move around the sun or how moons move around the planets. The reason that things fall toward the ground is that the earth we live on is so heavy that it pulls and absorbs things to itself by its great force.

***Read the following passage and answer the following questions. (۴p):**

There are many different opinions about how a person can actually have good health. People used to only think of their health when they were sick. But these days more and more people want to make sure that they don't get sick in the first place. In this article I will describe a few of the most common things that you can do to stay healthy.

One of the best things you can do for your body is exercise. But how much is enough? Not everyone agrees on exactly how much people should exercise each day. Some people think that doing simple things like cleaning the house are helpful. Other people do heavy exercise everyday such as running or swimming. One thing experts do agree on is that any kind of exercise is good for you. Along with exercise, having a healthy diet can help have good health. Foods like vegetables and fruits should be eaten several times each day. It is also important to eat foods high in fiber such as beans, grains, fruit and vegetables. Fiber helps your body to digest the food you eat. It also helps your body in other ways such as decreasing the chance of getting some cancers, heart disease and diabetes. Not eating foods with a lot of sugar, salt and fat is a good idea. Eating these kinds of foods can lead to different health problems. The main one being obesity. Obesity means having so much fat on your body that you are risking your health.

۲۶- Sugar is bad for our health but salt is good. (true/false)

۲۷-There are few ways that can help us have healthy body. (true/false)

۲۸-What is the best thing that we can do to have a healthy body?

.....

۲۹-How can fibers help our body?

I. Reading Comprehension : (3 point)
Read the following passage and answer the question.

The modern lifestyle has had both positive and negative effects on people’s lives. Modern technologies have enabled us to have easy access to information, become more creative, experience fast communication, travel easier, and have a more comfortable life. Have you ever imagined a world without the Internet, tablets, mobile phones, airplanes, and vacuum cleaners? Most people cannot do that, as technology is the miracle of our time. But using new technologies has changed people’s lifestyle in a harmful way in this century as well. Some technologies are dangerous to our health and can harm our body. Using mobile phones or surfing the Internet for long hours can increase people’s blood pressure and cause sleep problems. Playing video games for long hours makes people nervous and harm their heart and nervous system. Listening to music by headsets can be harmful to one’s hearing and even brain.

Using technology in a wrong way has created bad habits and new types of addictions. It is not strange now to call someone an Internet or mobile addict. Technology addicts are people with serious problems to control themselves to use various kinds of technology, in particular the Internet, smartphones, tablets and laptops. Technology addicts do not like to socialize with people; instead, they prefer to be alone and spend lots of their time working with their devices. This makes them depressed and impatient.

Specialists have found different ways to cure technology addicts. To avoid this type of addiction, people should spend more time with their friends and family members, do daily exercise, and limit the time of working with technologies. They also need to enjoy nature more and have regular plans to travel.

True or False

1. Technology has only negative effects. **False**
2. Listening to music is harmful. **False**
3. Technology may cause depression. **True**

Answer the following questions.

1. Who is a technology addict?
A technology addict is one who can’t stop using it.
2. Are there any cure for technology addicts?
Yes, there are
3. What types of technologies do you use?
I use smart phone, laptop and video games.

۳/۵ What do you do at the weekend? Some people like to stay at home, but others like to go for a walk or play football. My friend, Jack, works hard in a factory during the week. At the weekend, he always does the same thing. On Saturday, he washes his car and on Sunday, he goes with his family to a village in the country. His uncle and aunt have a farm there. It isn't a big one, but there is always so much to do on a farm. The children help with the animals and give them their food. Jack and his wife help in the field. At the end of the day, they all are hungry and Jack's aunt gives them a big meal.

The modern lifestyle has had both positive and negative effects on people's lives. Modern technologies have enabled us to have easy access to information, become more creative, experience fast communication, travel easier, and have a more comfortable life. Have you ever imagined a world without the Internet, tablets, mobile phones, airplanes, and vacuum cleaners? Most people cannot do that, as technology is the miracle of our time.

But using new technologies has changed people's lifestyle in a harmful way in this century as well. Some technologies are dangerous to our health and can harm our body. Using mobile phones or surfing the Internet for long hours can increase people's blood pressure and cause sleep problems. Playing video games for long hours makes people nervous and harm their heart and nervous system. Listening to music by headsets can be harmful to one's hearing and even brain.

1. What is the main idea of paragraph 2?
 - a. how to have a modern lifestyle
 - b. negative effects of modern lifestyle
 - c. positive effects of modern life style
 - d. both negative and positive effects of modern lifestyle
2. The word miracle in line 5 is closest in meaning to.....

Reading comprehension

Read the following passage then answer the following questions . (5.points)

Because deaf people cannot hear , they have special ways of communicating. One way is lip reading. With training ,people can learn to understand what someone is saying by looking at the mouth of the speaker. Speaking is possible but difficult for the deaf . Because they cannot hear their own voices ,It takes a lot of training to be able to make the correct sounds ,and not all deaf people can get the hang of this skill .But , the way of communicating that deaf people all around the world seem to think is the most practical is sign language.

The signs are formed with movements of hands ,face, and body. As with words, each sign has a different meaning .Signs are combined to form sentences. The alphabet of sign language is hand signs that stand for letters ; they make spelling possible .So deaf people can express their thoughts and feelings. Lastly it is good to remember that most people do not think of themselves as different from other people , and you don't have to either! **True or False**

26. If you get the hang of something ,you learn to do it well.
 27.The alphabet of sign language stands for words.
 28. The most practical way of communicating that deaf people use is lip reading.

Answer these questions .

- 29.Why do deaf people use special way of communicating ?
 30. Is it possible for deaf people to speak ?
 31. Name two special ways that deaf people use for communicating .
 32. Is it good to think that deaf people are different from other people ?

C. Read the second passage carefully and answer the questions : (3.5 Points)

Chess is called the game of kings. It has been around for a long time. People have been playing it for over 500 years. Chess is based on an even older game from India. The chess we play today is from Europe.

Chess is a two-player game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has one. The players take turns moving their pieces. If a player lands on a piece, he or she takes it. The game ends when a player loses his or her king.

There are a few more rules, but those are the basics. Some people think that chess is more than a game. They think that it makes the mind stronger. Good chess players use their brains. They take their time. They think about what will happen next. These skills are useful in life and in chess. Chess is kind of like a work out for the mind.

You don't always have lots of time to think when playing chess. There is a type of chess with short time limits. It's called blitz chess. In blitz chess, each player gets ten minutes to use for the whole game. Your clock runs during your turn. You hit the time clock after your move. This stops your clock. It also starts the other player's clock. If you run out of time, you lose. Games of blitz chess are fast-paced.

Chess is not just for people. Computers have been playing chess since the 1970s. At first they did not play well. They made mistakes. As time went on they grew stronger. In 1997, a computer beat the best player in the world for the first time. It was a computer called Deep Blue. Deep Blue was big. It took up a whole room. By 2006 a cell phone could beat the best players in the world. Chess sure has come a long way. Don't you think so?
