J. Reading Comprehension.

For many years people have been trying to create a simple universal language that would serve all over the world as a common means of communication. In the last three hundred years, more than seven hundred such languages have been suggested. The most successful and the most popular of these is a language called Esperanto. It was invented by Ludwig Zamenhof, who lived in Poland. When he was growing up, he saw that people from different backgrounds who lived in Poland had lots of difficulties communicating with each other. This often led to disagreements. Ludwig felt that a common language would help them understand each other better and agree with each other. So he began working on a common international language. He started his work while he was still at school! In ۱۸۸۷, he published some information about his new language. He did not use his real name. He used the name Dr. Esperanto (which means "one who hopes"). Soon people from all over the world became interested in his language, called Esperanto. Today, Esperanto is spoken by about eight million people throughout the world. Many governments and international organizations recognize it in many ways. Esperanto is often used on radio broadcasts from official government stations.

Reading Comprehension:

Read the following passage and answer the questions as required.

Are you a busy person who is always on the go and doesn't have a lot of time but still wants to get healthier? Don't worry, you're not alone. Most people want to get healthy, fit, and look younger yet they can't find the time for it.

Here are some advice for healthy living on the go:

1. Enjoy a glass of water first in the morning.

If you haven't got time for anything else in the morning, make time to drink a big glass of water. Our body loses a lot of oxygen through the night and to make our cells refresh, we need to supply them with water and oxygen.

2. Get some fresh fruit on your way out.

Wherever you're going –whether it's a walk or drive to the supermarket or on your way to a meeting- pick up some fruit and eat them. They contain vitamins and sugar that are needed for our body. So never forget to have enough servings of fruit every day.

3. Exercise on the go.

If you work in an office, get up every 30 minutes and go for a walk. If you have an office with stairs, run up and down the stairs every two hours. Get your muscles moving and your blood flowing
